## INTRODUCTION

You have an inalienable right to know everything that is relevant and vital to your life, to your well-being, freedom, happiness and overall welfare. You have a right to the unvarnished truth--to full disclosure in everything that involves you and your family!

It is nothing less than criminal to make you and your fellow countrymen victims of miseducation, misinformation, disinformation and misguidance, and the heinous machinations, wanton despoilment and the ruthless exploitation that have been saddled upon us all.

We Americans are among the most brainwashed and mind-controlled people on this planet! And we always thought it was in Russia and in other countries that this dastardly practice was perpetuated. That couldn't happen in a free country like America, could it?

Yes, we're being deliberately, calculatingly and criminally lied to on a grand scale!

**We are unscrupulously manipulated and treated!**

**We are unconscionably ripped off!**

**We are pitifully ravaged and despoiled in body and mind!**

**Yes, we are all victims of criminally sordid deceptions and massive fraud!**

This volume is an endeavor to awaken and rescue you in just one area in which a monstrous and murderous cabal, an international organization of super rich plutocrats have made almost all of us a sickly shadow of what humans can truly be. This has been done in order to reduce us to servile, submissive and unquestioning serfs--slaves if you will. As this is written in late 1993, the screws are being turned at an accelerating rate.

As I write this, the peonizing agreement called NAFTA has just been passed to the delight of this wicked cabal of plutocrats. A super repressive crime bill is being passed that is really against us all, not criminals. The law books are groaning under the weight of criminal law as it is. This new bill authorizes 100,000 more police with truly Gestapo powers! This is but a step to the additional 300,000 national police that President Clinton seeks. We already have more police per capita than any country on earth!

As I write this, we are on the verge of having universal coverage "health care" legislation imposed upon us. This

is really a final step in establishing a medical dictatorship-- a final step in making us a snivelling, weakly, whining and zombie-like population--poor specimens of the magnificent humans that we naturally can be!

The worst aspect of all this is that most of us are unaware of the grand deception being perpetrated upon us. Most Americans will, somewhere along the downward road, rudely awaken to the yokes being imposed upon us. But then it will be too late!

Let this book be your glimmer of light to a vision of your noble and exalting possibilities--of the possibilities of your children and posterity--if we undertake to live our lives in accord with our natural disposition as much as possible within the modern context.

Awaken yourself from the benumbing spells our propaganda mills have cast upon us all. Awaken from your social and economic slumbers. Awaken to the perilous rocks your ship is about to crash into! Take charge of the helm immediately while there is still time! Awaken!
